

The following is a list of upcoming works:

Installation of solar powered bollards at all minor road junctions between Balloch and Tarbet.

Installation of bend warning signs and chevrons at Inveruglas.

Resurfacing in the vicinity of Luss, under convoy only, between the 8<sup>th</sup> and 16<sup>th</sup> of May.

For noting, closures of the A82 between Tarbet and Crianlarich for resurfacing are likely later on in May. Formal notification will be received from BEAR Scotland nearer the time.
