Subject: Ongoing noise nuisance from pub door

Details of query: An ongoing noise nuisance from the pub use from the area previously reported via 101 is showing no signs of improvement. Loud noise from our house, next door, from 21.00 hrs onwards. The noise is very loud and very disturbing.

I politely approached the pub manager at 22.45 hrs asking for the noise to be reduced. The response was as usual that I was barred from the pub on the instructions of the manager. The reason given in order to have this conversation the manager asked to switch off the volume of a sound in the zone where we were standing.

I await reply from Environmental Health who has already been contacted.

As I am now barred from the pub I am unable to deal with this problem.

Did you try and contact the pub manager? Yes
