This bulletin is issued to over 400 community group representatives across Argyll and Bute, including many which support those with protected characteristics.

The support offered to date has primarily been digital, consideration will be given to promoting the process through other means to ensure access for those who are not digitally engaged.

3.4 Please outline any plans you have to continue involving local people and local groups in outcome improvement processes as a result of your Participation Request policies (and also outwith formal participation requests).

The upcoming review of the Argyll and Bute Outcome Improvement Plan will provide an opportunity for communities to participate in shaping local priorities. Engagement for the development of the plan will support the delivery of existing outcome improvement processes as well as wider community empowerment.

3.5 Please provide details about any work undertaken to consider wider reviews of participation practice, and any such methods used to engage with communities.

The Council have used the debate function within the online participation platform CONSUL for engagement relating to Covid-19 recovery. This platform offers the option for online participation in decision making and service delivery, and is currently supported by COSLA primarily to deliver Participatory Budgeting.

The Council are considering the lessons learned from the use of this platform to support future engagement and participation.

Appendix 1

The Council intends to increase awareness of the Participation Request process within communities and will look to best practice in other local authorities, for example the development of animations, to consider how best to improve promotion.

Have you identified any needs for guidance or support that would support the process?

The national online events facilitated by SCDC have provided excellent networking and knowledge sharing opportunities. Future events would help to support ongoing development of processes.

If you have developed any case study material or published new information about Participation Requests please share links to those with us here.

The Council will review the case studies within the SCDC Participation Request resource pack and consider the development of local examples.

Section Five – Community Empowerment Act Review

The following questions relate to the Scottish Government review of the Community Empowerment (Scotland) Act 2015. We would value your feedback as a public service authority concerned with part 3 (participation requests) of the Community Empowerment (Scotland) Act 2015.

5.1 Has the legislation made things easier or more difficult to access? Please provide some comments on your experiences as a public service authority engaging with this legislation.

Overall, the legislation has strengthened community voice in decision making and encouraged partnership working between the Council and communities. Despite limited Participation Requests being received, it has been a useful tool to support engagement.

5.2 Where can things be further improved, and what needs to change?

Increased dedicated resources for local authorities are needed to support awareness raising and engagement.

It would be useful to consider further monitoring of the Outcome Improvement Process once agreed, to help ensure that it is delivered within a reasonable timescale.

Appendix 1

5.3 Are you aware of what support is available to you when engaging with this legislation, and how you can access this? Please provide comments where possible.

Support from the Scottish Government Community Empowerment Team has been accessed when required.

5.4 What would you like to see now, to further empower Scotland's communities?

Improved knowledge and understanding of the legislation within communities.
